院長的話 Message from School Director

歡迎來到政務與政策科學學院 (SGPS) !

本學院結集了跨學科的努力，匯聚一群致力於瞬息萬變的世界中與時俱進並力求創新的學生和研究學者。我們擁有涵蓋不同領域的優秀學者及課程，每個課程都具備特有的學術思辨和研究方法，以解答全球的重要問題。我們的教學反映了全球和地方層面變化的速度，而這些變化正在重塑治理、公共政策和國內及國際政治。

鑒於香港於中國和亞洲的獨特角色，本學院不少學者在香港及中國研究方面擁有豐富的經驗。同時，由國家、國際組織、企業和公民所建構的全球環境，對於我們理解地方及全球治理的各方面如何發展和相互作用至關重要。

我鼓勵您細閱這份全球研究課程的小冊子。您亦可以瀏覽我們的網站進一步了解學院及課程。

希望您喜歡這個課程！

Welcome to the School of Governance and Policy Science (SGPS)!

SGPS is a multidisciplinary endeavour where we bring together students and researchers who aim to better understand and make a difference in our fast-changing world. We host a wide range of outstanding scholars and programmes, each featuring their own intellectual and methodological identities while seeking to answer questions of global significance. Our teaching reflects the fast tempo of changes at the global and local levels that are reshaping governance, public policy, as well as domestic and international politics.

Given Hong Kong's unique role in greater China and Asia, many SGPS scholars have extensive experience in the region as well as in China studies. At the same time, the global environment structured by states, international organizations, firms and citizens is critical to our understanding of how various facets of local and global governance evolve and interact with one another.

I encourage you to explore the programme in Global Studies in this brochure. You can access detailed information about the school and this programme on our website.

Happy exploration!

課程簡介 Programme Introduction

全球研究課程培育未來領袖，協助學生建立全球思維。課程設計回應各國市場一體化和日益頻繁的人才交流，培養懂得處理國際關係和地緣政治、分析相互關聯的全球經濟和金融聯繫的領袖，及應對全球環境與公共衛生問題的挑戰（例如氣候變化、污染、流行病）。

The BSSc in Global Studies Programme (GLSD) nurtures future leaders by cultivating a global mindset. It is designed to respond to the increasing mobility of talent and the integration of national markets, and to meet the rapidly rising demand for leaders who can negotiate international relations and geopolitics, analyse interconnected worldwide economic and financial linkage, and react to global environmental and health challenges (e.g., climate change, pollution and pandemics).
